Extra power and torque ensures operation with low ERPM drops. Hence, increasing productivity by 10-15%

Best in class hydraulic sensing for maintaining equal depth of cut and sowing potato at same level of soil bed. Dedicated hydraulic pump ensures quick lifting while turning.

OPTIMIZED TRACTOR WEIGHT DISTRIBUTION
Tractor wheelbase and weight ratio is best in class WRT potato sowing to avoid any chances of front end lifting during turning.

INLINE MESH REVERSER
Ensuring quick forward and reverse movement of tractor best suitable for potato sowing during turning with cost benefits of 20,000 rs.

POWER STEERING
100% dedicated power steering pump with very low steering efforts and easy maneuverability.

SPACIOUS PLATFORM
Flat platform with best in class designed levers and foot pedals. Extra cushioning seat with back rest ensuring long continuous hours with no fatigue.
