Extra power and torque ensures operation with low ERPM drops. Hence, increasing productivity by 10-15%

#### SIX STAGE COOLING

Ensures continuous long hours working without load on engine, also without engine overheating

Turn plus & portable front axle ensures minimum turning radius and high ground clearance for rotavator puddling operation

#### INLINE MESH REVERSER

More PTO power in particular HP segment for more depth of cut with good pulverization

#### SPACIOUS PLATFORM

Flat platform with ergonomically designed levers and foot pedals. Extra cushioning seat with back rest ensuring long continuous hours with no fatigue.

#### DUAL CLUTCH

Dual clutch as standard fitment low effort of clutch operation. Also, it ensures that PTO does not stop even during change of gears or while turning at the end of pass.
